Key Metrics

State

Ohio

Total Sales: 2060580

State

Arkansas

Total Sales: 1114920

State

South Dakota

Total Sales: 838775

State

Louisiana

Total Sales: 644882

State

Delaware

Total Sales: 596748

Detailed Results

State	Total Sales
Ohio	2,060,578.43
Arkansas	1,114,915.14
South Dakota	838,774.55
Louisiana	644,881.76
Delaware	596,748.36

Key Insights

- 1

{'observation': "Ohio's sales are nearly double those of Arkansas, the next highest state in this sample."}
- 2

{'observation': 'There is a steep drop in total sales from Ohio to Delaware, indicating significant regional variation.'}
- 3

{'observation': 'The top two states (Ohio and Arkansas) account for the majority of sales in this subset.'}

Detailed Findings

- Ohio has the highest total sales at 2,060,580.
- Arkansas follows with 1,114,920 in total sales.
- South Dakota has 838,775 in total sales.
- Louisiana's total sales are 644,882.
- Delaware has the lowest among these states at 596,748.

Recommendations

- ✓ Focus sales efforts on high-performing states like Ohio and Arkansas.
- ✓ Investigate factors contributing to lower sales in Delaware and Louisiana.
- ✓ Collect more comprehensive data to inform regional sales strategies.

Limitations

- Only five states are included in the data.
- No information on the time period of sales.
- No breakdown by product or category.

Next Steps

- Expand analysis to include all states.
- Analyze sales trends over time.
- Break down sales by product or category for deeper insights.
